

Flexibility & Operating Efficiency

- Maximum capacity with fewer filling stations compared to other technologies
- Guaranteed accuracy of +/- 0.50% or better
- True deep diving bottom up fill nozzles
- Speeds up to 600 containers per minute
- Supports a wide range of container sizes with minimal changeover time

**Flexibility,
Performance and
Operating Efficiency**

ROTARY VOLUMETRIC PERSONAL CARE FILLER

Options:

- Laminar flow nozzles for light foamy products
- Magnetic flow or mass flow meter fill system
- Temperature controlled filling system
- Hazardous rated control system
- Conveyor drives and controls
- Monobloc or tribloc arrangement
- Right to left orientation
- Automatic lubrication system
- UL/CE electrical panel certification

Standard Features:

- Volumetric timed-orifice filling system with variable rate of flow
- Sanitary 316L stainless steel wetted parts
- Deep diving bottom up fill nozzles with CIP arrangement and tool-less fasteners
- Universal bottom up fill cam system to support numerous container heights
- Quick-change "universal," tool-less container handling parts
- Automatic filling turret height adjustment
- OSHA compliant safety enclosure
- All stainless steel construction
- Allen Bradely variable frequency drives, PLC and HMI
- Maintenance-free drive system
- CIP catch trays with integrated frame gutters

Integrated Solutions:

In addition to integrated filling solutions, Pacific Packaging Machinery also offers rotary capping, sorting and conveying systems.

For slower speed applications, Pacific Packaging provides automatic inline filling solutions.
